

HIGHLANDER HARD SHELL ROOF TENT

INTRODUCTION

This innovative design is one of the most spacious hard shell roof tents available, featuring a unique double hinge system that creates additional foot space at the rear and an extended annex at the front. It combines the best elements from various designs to provide an unparalleled camping experience. Constructed from robust aluminium, premium fabric, and high-quality components, it is built to withstand the harsh conditions of outdoor exploration.

WHATS INCLUDED

The AMA Highlander Roof Tent comes with all accessories which include a telescopic aluminium ladder, an internal LED light, Anti condensation mat and a waterproof shoe bag. Inside, you'll find a 50mm high density foam mattress and internal roof pockets with a screen holder. The tent also includes a pre installed roof rack for additional storage options, and a universal mounting kit for easy installation on your vehicle. Everything you need for a comfortable and hassle-free camping experience.
