

AMA 270 DEGREE AWNING

INTRODUCTION

Our 270 Degree Awning is designed to withstand rugged conditions, our awning features unique rain tension arms that prevent puddling during heavy downpours and built-in LED lights with customisable illumination, perfect for when day turns to night. The quick-deploying legs offer stability for extended stays, even in harsh weather, while the freestanding design handles lower winds with ease. With its height-adjustable universal brackets, this awning fits any vehicles with sufficient height to allow standing clearance when the awning is adjusted.

WHATS INCLUDED

Our 270 Degree Awning comes with everything you need, including height adjustable universal brackets, built-in LED lights with individual switches, guy ropes, pegs & quick deploying legs for added stability. Within 40 seconds, you'll be zipped, clipped, and sheltered, ready to transform your outdoor space into a kitchen, lounge, or cosy retreat by the fire.
